

MTB Tag Fitting Guide

Please follow these instructions to ensure optimum performance from your ChronoTrack timing tag

Your timing tag, programmed with your race number, is already attached to your numberplate.

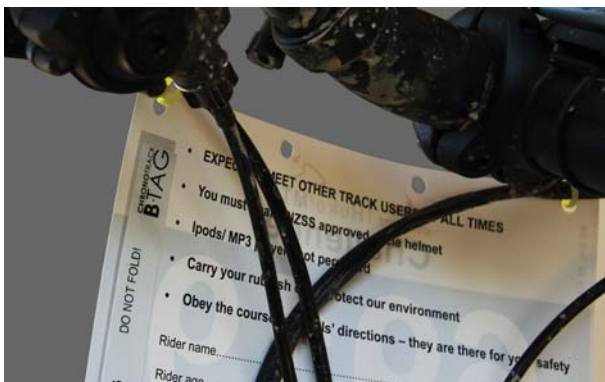

Thread cable ties through holes

Loosely tie cable tie around brake cables.
DO NOT WRAP NUMBERPLATE AROUND BARS

Attach second tie.

Note: Ensure timing tag is clear of bars or brake levers

Numberplate in place

- ⚠ Please do not remove your timing tag
- ⚠ Please do not bend or fold your timing tag
- ⚠ Please do not have your timing tag touching your handlebars or brake levers
- ⚠ Failure to follow these instructions will mean your time may not be recorded

If you have difficulty following these instructions please see a timing official for assistance
