

Road Bike Relay Tag Fitting Guide

Please follow these instructions to ensure optimum performance from your ChronoTrack timing tag

A timing tag, programmed with your relay team's race number, is supplied to each team

Each relay team member is also provided a plastic number holder

Thread cable ties through holes and **loosely tie** around seat-post.

Before tightening cable ties slide the holder to ensure there is a gap between the seatpost and the pocket

Slide number fully in to holder before starting your leg of the race

Slide team number out of holder at the end of your leg of the race and pass to next team member

-  **Your time will only be recorded if your race number is in your holder when you cross the timing lines**
-  Please ensure there is a gap between the pocket in your number holder and the seatpost
-  Please do not bend or fold your timing tag Please do not modify or cut your timing tag
-  Failure to follow these instructions will mean your time may not be recorded

If you have difficulty following these instructions please see a timing official for assistance
